PostgreSQL	CSS3	TDD (Mocha/Chai)
EJS	Git / GitHub	

Projects/Experience

Word Of Mouth Moving - Website rework

December 2018

www.wordofmouthmoving.com

Modern responsive design was of high-priority in the re-development of the Word Of Mouth Moving company website. Much needed improvements were made for all device compatibility. Features like price estimate tables, embedded Google maps, and a quote request form now provide broader, more-dynamic content and reflect a quality consistent with the business.

M-O-V-I-N - Informational Website

October 2018

<https://polar-wildwood-89190.herokuapp.com/> | https://github.com/uncblythe1/Q2_movin_austin

I worked independently in my web development program to build a CRUD application to serve as an informative website for the people of Austin to aid in the moving process. I incorporated the Google Maps API, JavaScript, CSS3, HTML5, PostgreSQL, Express, and Knex.

Killbase - Full-stack CRUD Application

September 2018

<https://protected-eyrie-84213.herokuapp.com/> | <https://github.com/uncblythe1/killbase-app>

A full-stack assassin contract organization application. The application was created with JavaScript, HTML5, EJS, CSS3, Express, Knex, and PostgreSQL.

Fowl Play - Interactive Game**August 2018**

http://q1project_fowlplay.surge.sh/page1.html | <https://github.com/mits254/q1-project-fowlplay>

I worked with a classmate to develop an interactive flappy bird game with an audio visualizer component. We incorporated JavaScript, CSS3, Phaser.js, Anime.js, and HTML5 Canvas as technologies.

Web Development Instructor - Hello World Studios, Austin TX October 2018 - Current
